

# Enlightium Prep

## Computer Use Contract

The faculty and staff at Enlightenment Prep are committed to fostering a Christ-centered, learning-focused environment in the computer lab and on student laptops. We emphasize responsible stewardship of shared resources. Students are expected to uphold the school's standards of conduct when using computers:

- ☐ I will log in to school computers with the assigned username and password. I will not share my password with others or try to learn others' passwords.
- ☐ I will access the Internet only when given permission by a teacher to do so, and I realize I must be under a teacher's supervision to remain online.
- ☐ I understand that accountability software will monitor my activity at all times.
- ☐ I will not knowingly access any web page that contains inappropriate or illegal content. I will not download or attempt to access any pirated, inappropriate, or unauthorized files on any school computer: images, music, movies, software, etc.
- ☐ I will not bring any food or drink into the computer lab.
- ☐ I will not alter/damage or attempt to alter/damage the computer's software, hardware, or any files that are not my own without consent from the instructor.
- ☐ I will not play games or use any other program not associated with the class assignments without the instructor's consent.
- ☐ I will not attempt to bypass any security controls on the computer or network.
- ☐ I will not attempt to install, uninstall, remove, or attach any hardware or device to the computers except USB drives or approved devices.
- ☐ I will respect others in the computer lab by not playing media that would distract them.
- ☐ I will not violate copyright laws when researching and working on school projects/essays.
- ☐ I understand that I am morally and potentially financially responsible for any violations and will submit to disciplinary action as the school deems appropriate.
